*Additional purchase required.

**Additional purchase of Sage Additions required. These are products developed by the Sage Developer Community (not Sage) that integrate with some Sage products.

***Quick indicates there is a dedicated entry form to simplify the data entry process for either cash or till takings. These forms are designed to simplify the data entry process for owner managers who are unfamiliar with accounts software. These activities are completed directly into the bank accounts in all other products

System requirements:

To get the best possible performance from your Sage software, it's important to check that your PC meets the **minimum** requirements of the software and, where possible, the **recommended** requirements.

Recommended requirements

An IBM-compatible computer with a 2 GHz (or equivalent) processor

At least 1GB RAM

At least 1GBMB of free disk space after Microsoft®Windows has been installed

Windows 2000; Windows Server 2003; Windows XP (recommended); Windows Vista

Network users only: 1Gbps network cards and switches with Microsoft Windows networking

Works with Microsoft Office 2000 and all later editions.

Please ensure that the latest Microsoft updates are installed.

Performance will be improved with higher specification computers and networks

Minimum requirements

An IBM-compatible PC with 1Ghz (or equivalent) processor

512MB RAM

700MB of free disk space after Microsoft Windows has been installed

Windows 2000; Windows Server 2003; Windows XP (recommended); Windows Vista

Network users only: 100Mbps network with Microsoft Windows networking

Works with Microsoft Office 2000 and all later editions.

Please ensure that the latest Microsoft updates are installed.

Performance will be improved with higher specification computers and networks
