

## Sage 200 Business Intelligence

### Sage 200 Business Intelligence Course Content

#### Sage 200 BI

In just one day you will understand the standard functionality of Sage 200 BI. Learn how to build and amend reports using Financials and Commercial cubes, 'slice and dice' the data and create report sets.

#### Preparation :

You should have a basic understanding of Microsoft Excel 2000. Experience of Excel 2007 would be an advantage. No previous knowledge of Microsoft SQL or analysis services is required or expected.
